Objective Program	Report: Attach File to Invoice Objectives: For SJI's business requirement, during the invoice creation process, users are required to specify the required documents according to each customer's conditions, as the document requirements may vary by customer. Currently, users refer to a manual paper checklist to verify the required supporting documents before issuing a sales invoice.

Program Information

1 Selection Screen

The screenshot shows the SAP 'Billing Required Documents Report' selection screen. At the top, there is a navigation bar with the SAP logo, the report name, and a search bar. Below this, there is a 'Menu' dropdown and a 'Save as Variant...' button. The main area is divided into three sections: 'Billing Document Number', 'Document Data', and 'Selection Criteria'. The 'Billing Document Number' section has a 'Billing Document Number' field with a 'to' field and a magnifying glass icon. The 'Document Data' section has 'Billing Type', 'Payer', and 'Billing Document Date' fields, each with a 'to' field and a magnifying glass icon. The 'Selection Criteria' section has a 'Maintain Required Documents' checkbox, which is checked. At the bottom right, there is an 'Execute' button.

No.	Field in Report/Program	Description
Billing Document Number		
1.	VBRK-BUKRS	Billing Document Number
Document Data		
2.	VBRK-FKDAT	Billing Date
3.	VBRK-FKART	Billing Type
4.	VBRK-BELNR	Billing Document
Selection Criteria		
5.	ZTABLE	Assign Document to Customer Code

2 Program Logics

2.1 Process

Functional Specification

2.2 Condition

1 Report:

- Display the billing number according to the billing document date (based on the input parameter)
- Display all fields as specified in the table.
- The reference document number in the header (VBRK-XBLNR)

2 Maintenance Table: Maintain Customer Code to Documents

- When opening the customize table, the program checks the customer code in **KNA1**. If not found in the customize table, it displays it in the program.
- Check box icon.

Field list from selection parameter and ztable, below table shows all fields input in selection screen:

3 Report Layout

The screenshot displays the SAP 'Billing Required Documents Report' interface. The table lists various billing documents (BIIT) and their associated details, including payer, billing date, and document number. The table is organized into columns for different document types (Invoice, DO, Billing, PO, Packing List, Mail Invoice, Mail DO) and checkboxes for various requirements (Send to Acc, Remark, Not Print E-Tax, Print E-Tax). The interface includes a search bar, a menu, and a toolbar with various icons for report manipulation.

BIIT	Payer	Billing Date	Billing Document	Invoice (Batch)	Invoice (Non-Batch)	DO (Batch)	DO (Non-Batch)	Billing	PO	Packing List	DO (Cus)	Mail Invoice	Mail DO	E-Mail	Contact Person	Send to Acc.	Remark	Not Print E-Tax	Print E-Tax
